SKILLS

- **Programming Languages:** C++, Java, JavaScript, PHP
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, Laravel, REST APIs, MVC Architecture, JWT Authentication, JSON
- **Databases:** MySQL, MongoDB, Database Design, Query Optimization
- **Tools:** Git, GitHub, Docker, Postman, VS Code, XAMPP
- **Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Agile Development

INTERNSHIP EXPERIENCE

Full Stack Development Intern | Flyrank AI

July 2026 – August 2026

- Audited and mapped 14 recurring development, academic, and project workflows to identify opportunities for AI collaboration, delegation, and automation.
- Designed a structured AI-assisted engineering workflow covering coding, debugging, documentation, testing, and technical decision-making with human-review checkpoints.
- Performed database design, debugging, testing, and application performance optimization, reducing response time by 20%.

PROJECTS

AIPS | [Github](#) | [Live](#)

Dec 2025

- Built an AI-powered portfolio platform to present projects, technical skills, experience, and achievements through an interactive web interface.
- Implemented project-focused sections to showcase software development, AI/ML, frontend, and automation work in a structured format.
- Implemented personal AI chatbot for guidance in AI-based tracking using Gemini API.

Tech Stack: React.js, JavaScript, Tailwind CSS, Node.js, Firebase, Gemini API, Git/GitHub

AI VIDEO RESTORATION PIPELINE | [Github](#) | [Live](#)

June 2026

- Developed an end-to-end AI-powered video restoration pipeline for recovering and enhancing old CD media using album photographs as visual references.
- Implemented scene detection and representative-frame extraction to divide long videos into manageable shots and identify key frames for restoration.
- Integrated super-resolution, de-noising networks, and robust model checkpoints for multi-stage video enhancement.

Tech: Python · PyTorch · Torchvision · OpenCLIP · Real-ESRGAN · InsightFace · ONNX Runtime · FFmpeg · PySceneDetect · NumPy · OpenCV · Git/GitHub

TECHNICAL TRAINING & CERTIFICATES

- Mastering DevOps | Infosys Springboard Jan 2026
- Full Stack Development | Infosys Springboard Mar 2026
- Claude 101 | Anthropic Jun 2026
- Introduction to Generative AI | Google Apr 2026

EDUCATION

Lovely Professional University

Bachelor of Technology in Computer Science and Engineering

Punjab, India
Aug 2025 – Present

DAV Public School

Matriculation | Percentage: 74%

Kangra, H.P.
